"PhotoTherapy" techniques use people's ordinary personal snapshots, family photos, and pictures taken by others, to help them connect with deeply-held feelings, memories, beliefs and attitudes which are unable to be accessed by just using words (or inner thinking) alone.

**\*This Presentation by PhotoTherapy pioneer Judy Weiser** will introduce these techniques and discuss the "what", "why", and "how" of each one, explaining how they work (alone or in combination with other art media) to enhance any kind of counseling practice -- or to assist in personal healing process work.

**Cost\***: Ticket price before January 7: \$30 (Students & 2-day Workshop registrants: \$25)

After Jan 7 (and at the door), cost: \$35 (Students & 2-day Workshop registrants: \$30)
